---

We design and produce every  
component in Italy.

*of* EXPERIENCE

SPIDOGLOSS™

XPRO

## THE BEST, ALWAYS

We know just how important productivity, repeatable cooking results and ease of use are for fast catering. We aim to standardise every action, making it as rapid as possible while minimising the risks involved.

The Spidoglass XPRO glass ceramic hotplate is the result of over 30 years of experience.

# PERFORMANCE

## REPEATABLE COOKING RESULTS

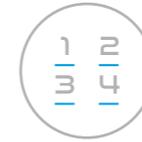

# PERFECT CONTROL

To keep customers satisfied, service has to be fast, cooking quality uniform, and operation easy. Spidoglass XPRO delivers excellent, repeatable cooking results thanks to its unique characteristics:

### DIGITAL TEMPERATURE CONTROL

The last temperature setting is always held in memory, even if the appliance is switched off and on again.

### PROGRAMMABILITY

4 cooking programs with different temperature and time settings can be saved and recalled as needed.

### TIMER MODE

4 fixed temperature, timer only programs can be saved and recalled.

### STANDBY MODE

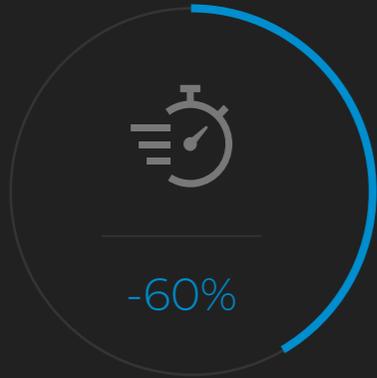

The appliance can be set to standby during idle times to minimise consumption without switching the hotplate off.

EFFICIENCY

UNPRECEDENTED PERFORMANCE

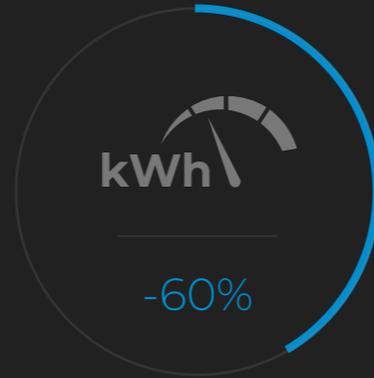

TIMES

Preheating times are reduced by 60% thanks to an infrared heating system.

CONSUMPTION

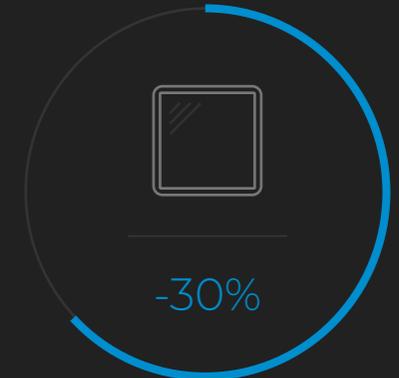

Energy consumption is also reduced by 60% thanks to sophisticated thermal insulation.

CLEANING

Cleaning is quick and easy and can be completed in just 5 minutes thanks to glass ceramic surfaces and special detergent.

MATERIALS

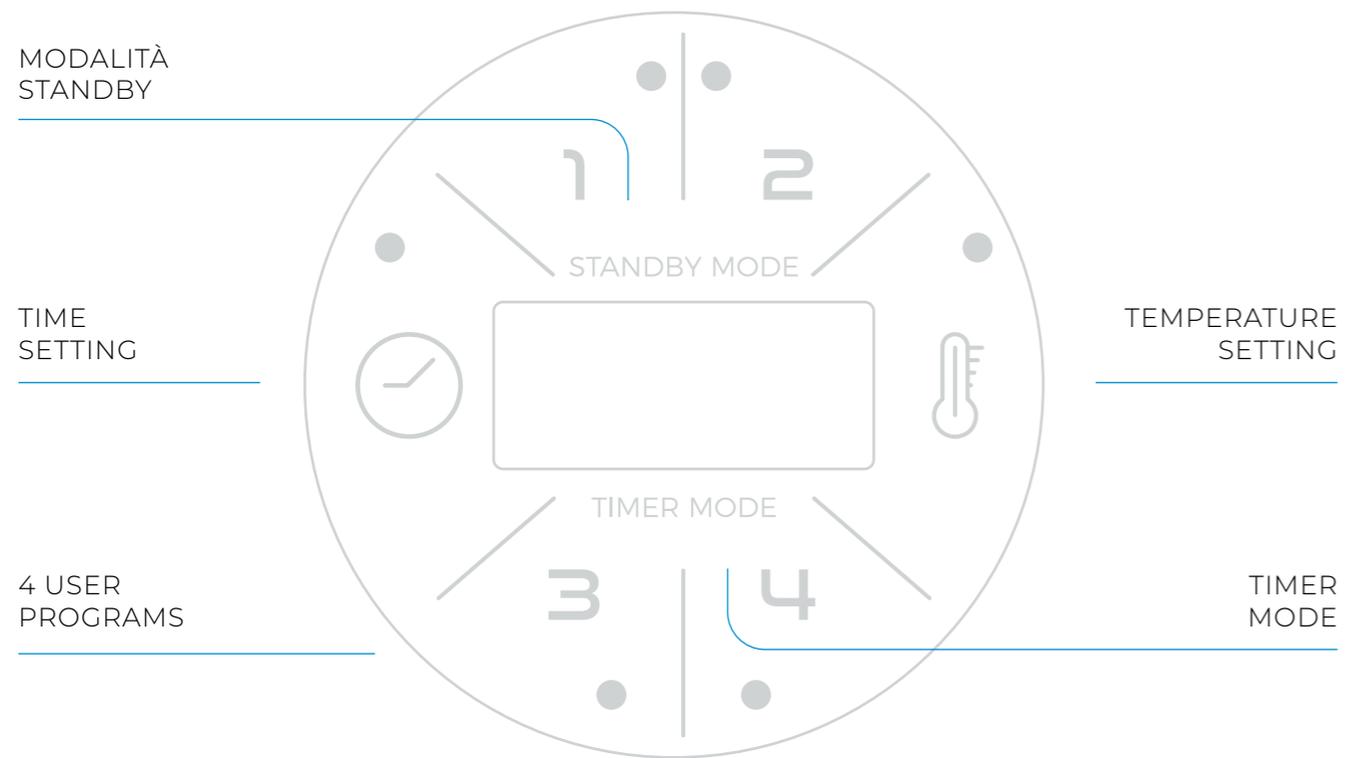

Thanks to strong but lightweight materials, the appliance weighs 30% less than others.

# X.TOUCH

## INTUITIVE USER EXPERIENCE

The X.Touch display makes operation extremely easy.

Every second counts when serving customers. 4 custom cooking programs can be selected with a simple click, eliminating adjustment times, ensuring totally repeatable and uniform cooking results, and reducing customer waiting times.
